Collect faster
with zero effort
and no process change.

Hylobiz Collection automation platform helps the sellers to digitize their invoice management and invoice collection process.

Sellers can automate their invoice management, distribution and reminders with payment links to collect and reconcile seamlessly.

And, all of this is achieved through out-of-the-box integration with their accounting platforms like Tally, Zoho, Quickbooks, Xero, Wave, Excel sheet, PDF documents etc.

Prominent use cases across industries

Payment link based digital collection by service industries like automobile servicing, water purifier servicing, goods delivery, home appliance servicing, apartment maintenance collection, rent collection, freelancers, homepreneurs etc.

Small manufacturers, distributors, traders etc. to send automated reminders based on invoice due dates and automate invoice reconciliation directly to the connected accounting platforms.

Account Receivables

Features

Auto-import invoices from ERP

Connect with pre-integrated accounting platform or ERP and import invoices to send payment links or reminders.

Digital payment links and payment reminders

Pre-integrated payment gateway enables the option to collect payments digitally by offering multiple payment methods like Credit Card, Debit Card, UPI & Net Banking. Multiple reminders can be configured for different customer sets.

Create e-invoice/proforma invoice

Invoice can be imported from ERP or can be created on Hylobiz platform with the reverse sync capability, into existing ERP.

Automated ledger and account statement distribution

Customer can easily share transaction details along with payment link via social apps like WhatsApp, Facebook, Instagram, Email, SMS etc.

Field collection & audit trail

All collections done on field via cash and cheque can be reported to the HQ via mobile app's data entry.
